

plants grow people

# ABOUT US

Ugao is a plant company that reconnects people with nature and helps cultivate a life well-lived.

## OUR MISSION

We have a dream to make Earth a better place to live in.

The best and easiest way to do this is to increase green cover and create spaces for nature/plants at our homes & offices.

We are an organization with a firm vision to influence people to go green, grow their own food and connect with nature through our product offerings.

## WHY US

Who doesn't love plants?

Plants are the newest trend in gifting - a gift that lives and grows. With biophilic designs trending in homes, workplaces and the hospitality industry, Plant-gifts will never go out of style!

---

All our plants are produced by us using scientific methods that ensure our plants are the healthiest option

---

We have self watering pots that reduce the hassle of daily watering and special soil mixes so our plants get all the required nutrients

---

Our support team is available to answer any queries and are always happy to assist plant parents!
